WORLD FIRST AID DAY

SAFETY STARTS WITH YOU

A SAFETY CULTURE CAN ONLY BE ACHIEVED BY EVERYONE OWNING SAFETY.

JUST DON'T WALK BY! REPORT IT.

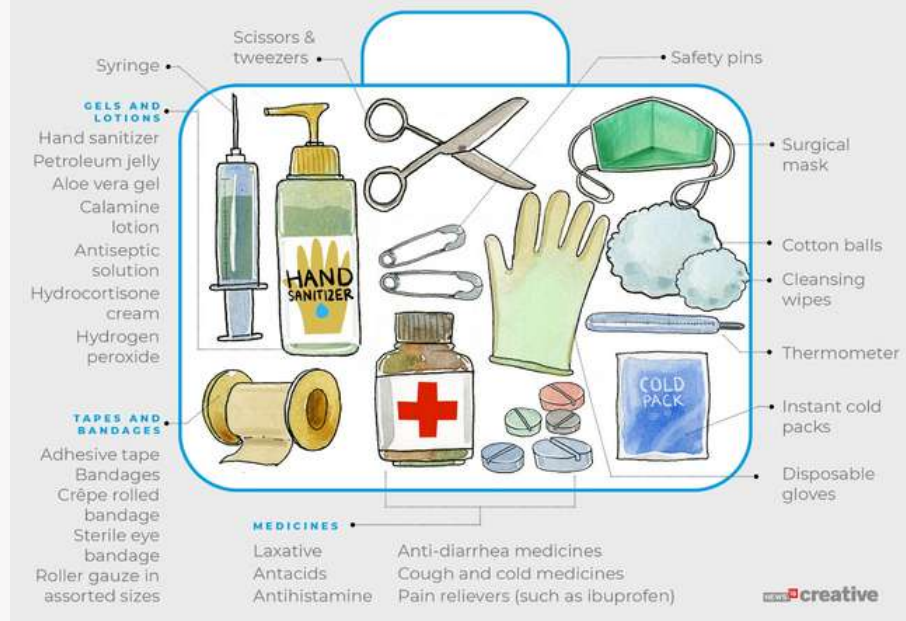

- IF YOU COME ACCROSS UNSAFE CONDITION OR SEE AN UNSAFE ACT. DON'T JUST WALK AWAY.
- TAKE RESPONSIBILITY FOR REPORTING IT OR TALKING TO THOSE INVOLVED AND GETTING IT CORRECTED.

OWN IT AND REPORT IT BEFORE IT HARMS YOU OR THE OTHERS.

Taking place on the second Saturday in September every year, The World First Aid Day is an annual campaign to increase awareness of how first aid can save lives. It was first established in 2000 by International Federation of Red Cross and Red Crescent Societies (IFRC).

As the name suggests, first-aid is the primary medical attention provided at the site of injury immediately after an accident, till professional help arrives. Anyone can train for first aid, regardless of educational background.

DINING IN DURING PPKM IN JAKARTA

Following the recent government regulations where restaurants are permitted to serve customers during PPKM, many excellent dining destinations have now re-opened again for dining in, with strict health protocols and limited sitting time that are still applied. Most places required guests to show their vaccination cards before entering the venue.

CASPAR

The idyllic outdoor seating at Caspar is a perfect spot for any occasion, offering breezy cool air both on an open-air terrace area especially during the golden hours for a quick catch of sunset.

The entire Caspar's outdoor terrace can accommodate up to 90 people, and to go along with their Spanish fare, we recommend their signature tapas like Gambas Con Salvia, Croquetas Mixtas, and Tortilla Espanola, for their paellas we recommend Arroz Negre De Alicante and Arroz Meloso De Marisco.
