PPKM LEVEL 2

The Ministry for Home Affairs has announced that DKI Jakarta will be under Level 2 PPKM restrictions, effective 30 November 2021.

Under the Level 2 PPKM restrictions, non-essentials business are now permitted to have 50% staff Work From Office (WFO).

Please continue to display staff numbers (WFO) at your office reception, on a daily basis.

PPKM LEVEL 3 DURING CHRISTMAS AND NEW YEAR HOLIDAY IN INDONESIA

The government will implement Level 3 Community Activity Restrictions (PPKM) throughout Indonesia during the Christmas and New Year holiday periods (24 December 2021 to 2 January 2022). This is intended to suppress the spread of COVID-19.

The PPKM Level 3 policies in the Ministry of Home Affairs include regulating activities in places of worship with a maximum capacity of 50 percent, activities in cinemas and places to eat and drink with a maximum capacity of 50 percent, activities in shopping centers with a maximum capacity of 50 percent, capacity of 50 percent until 21.00 with the implementation of strict health protocols, and closing public facilities such as squares and open fields. Previously, the government had set several policies anticipating year-end holidays. Such as an appeal for the public not to travel, not to return to their hometown with non-primary purposes, as well as tightening travel rules using public transportation modes, at least they must have received the first dose of vaccine.

Capital Place Management will notify tenants how this restrictions will impact WFO as soon as these restrictions are published.

A gentle reminder during the end of the year break,

- Ensure your office entrances are locked properly;
- Unplug your electronic devices, to avoid shorting in your office;
- Empty your pantry and refrigerator of leftover F&B;
- Please store your personal belongings safely;
- Stay safe and healthy.
